

His Eye Is On the Sparrow

***Jesus said: “What is the price of two sparrows – one copper coin? But not a single sparrow can fall to the ground without your Father knowing it”
(Matthew 10:29)***

Nowadays a Global Positioning Service (GPS) “receiver” can be installed in vehicles, phones or personal hand-held devices. With this connection, it’s virtually impossible to ‘get lost.’ The beam from a satellite orbiting more than 12,000 miles above Earth’s surface can locate a person within 50 feet anywhere in the world and with the speed of light. All the above being true, does it not stand to reason that ‘God’s Positioning Service’ (GPS) is even more reliable in locating and recovering “the lost” than any man-made invention will ever be? And it’s so comforting to know that none of us is ever out of God’s range of vision.
